- Military Force Protection
- Counter Terrorist Forces and General Security.

#CEM Extending Arm

Telescopic Stems

A long-reach telescopic arm that can be fitted with a range of mirrors and is available with or without powerful LED Light Pod Illuminator. The arm is fitted with a ball joint on the end to allow the interchangeable mirrors to be adjusted for the best angle of view and to fold flat for storage and transport.
Extra mirrors can be ordered separately.

- Lightweight
- 7 Hours continuous illumination between battery change
- Needs only 2 x AAA batteries
- Weather proof (IP64)
- Ultra-bright LED technology
- 5-section extending arm
- Fits all existing search mirrors

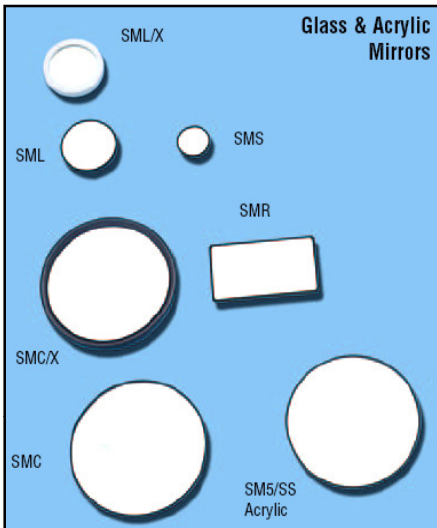

- Dimensions:**
- Extended length: 1500mm.
 - Closed length: 390mm
 - Handle diameter: 40mm
 - CEM weight : 550g (without light pod)
 - CEM/ILL weight: 60g (with light pod and batteries):
 - Note: Telescopic arms require mirrors which should be selected from the range given below.

Part Number	Description
# CEM	Telescopic Arm
# CEM/ILL	Telescopic Arm with Torch
# CEM-LP	Light Pod Only

Interchangeable Mirrors

All mirrors are easily interchangeable and are set in lightweight black polypropylene frames with screw fixing studs. Protected glass and robust acrylic mirrors are available.

Part Number	Description
Standard mirrors	
# SMS	38mm dia., glass plano, 16g
# SML	64mm dia., glass plano, 32g
# SMR	64x114mm, glass plano, 68g
# SMC	140mm dia., glass convex, 127g
# SM5/SS	140mm dia., acrylic, plano, 134g
Protective rubber surround Mirrors:	
# SMC/X	140mm dia., glass convex, 178g
# SML/X	64mm dia., glass plano, 48g

SEARCH MIRRORS

Efficient battery-powered design for rapid and effective vehicle search

The capability to conduct rapid and effective visual searches of vehicles is essential for the protection of fixed installations and other potential targets and in the search for contraband material.

Our visual search equipment is standard issue to numerous government agencies and military units world-wide and provides users with a field-proven and versatile search capability.

UNDER VEHICLE SEARCH MIRROR - TROLLEY TYPE

A large convex mirror with fluorescent lighting mounted on castors for searching the underside of vehicles.

The mirror offers a wide field of view and the hinged handle can be lowered to ground level for maximum under vehicle penetration.

Illumination is provided by an energy efficient 12watt fluorescent lamp which has a 2m (6.6ft) flying lead and may be used independently as a search lamp.

The unit is powered by 10 D-cell batteries which fit into the handle and provide up to 8 hours of continuous operation.

Specifications	
Dimensions	# VMBD/2 & # VMBR/2 330x265mm (13x10.4in) convex glass mirror
Illumination	2x6 watt fluorescent lamps in a splash proof acrylic housing with handle grip and 2m (6.6ft) flying lead, clip fastened to trolley base
Handle	950mm (3ft) hinged aluminium handle.
On/Off	3-way switch with Off, Latching and Momentary positions
Power	10 D-Cell batteries
Rechargeable Version - VMBR/2	10 Cell Rechargeable Ni-Cad Battery Pack

Part Number	Description
# VMBD/2	Battery powered (D Cell) Trolley Mirror with Glass Mirror
# VMBR/2	Trolley Mirror with Rechargeable Ni-Cad (Glass Mirror)
