## Plastic Wheel Stops

### Specifications

Description:	Recycled plastic wheel stop.
Material:	Recycled plastic.
Finish:	Solid colour
Length:	1650mm.
Width:	135mm.
Height:	95mm.
Installation:	9kgs.
No. of fixing:	3 x 150mm Masonry anchors, or Asphalt spikes.

Suitable in all parking areas to avoid damage to vehicles or property caused by vehicles over-shooting parking bays. These tough wheel stops are manufactured from recycled plastic. They won't chip or rust, and they come complete with fixings.

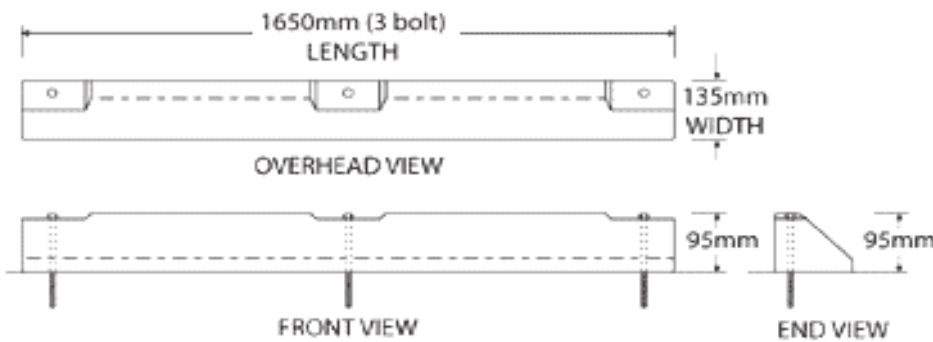

The low height of 95mm ensures that vehicles with low clearance will not be damaged as they can be with taller concrete wheel stops.

Also suitable for use in factories and warehouses to prevent trolleys and forklifts from bumping into walls or offices etc...

### Value Features

- \* Designed to comply with AS2890.1:2004.
- \* Can be fixed to concrete or asphalt.
- \* Economical and simple to install.
- \* Solid moulded construction.
- \* Recycled plastic won't chip or corrode.
- \* Mounting holes moulded in.
- \* Low profile reduces the risk of damage to parking vehicles.
- \* Can easily be removed or repositioned at any time.
- \* Comes complete with fixings.
- \* Available in grey or yellow.
