## Specifications

Description:	Polyurethane 5 channel cable protector.
Material:	olyurethane plastic.
Length:	Body - 914.4mm. Ends - 120.7mm.
Width:	Body - 444.5mm. Ends - 444.5mm.
Height:	50mm
Channel Width:	five 33mm channels
Weight:	Body - 10kg per module. Ends - 2.4kg per pair
Installation:	Interlocking modules, no tools required.

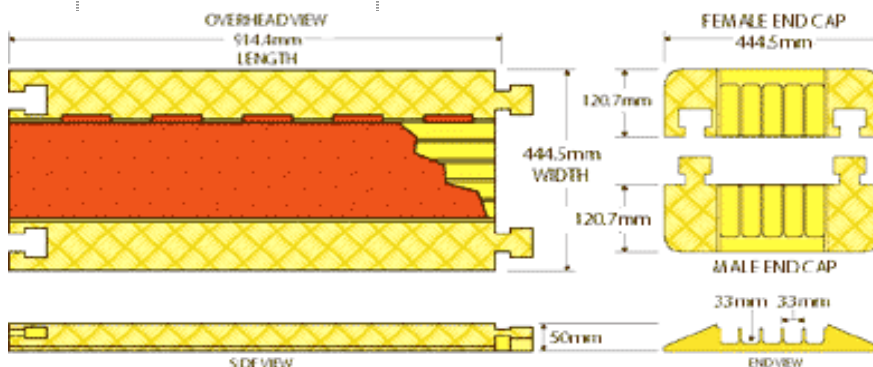

### Cable protector CPM33

A five channel hinged lid cable hump, for the protection of valuable cables and hoses. The hinged design makes reconfiguring of cables and hoses a simple matter of lifting the lid, placing and closing. Highly visible and extremely strong, the five channel cable hump is rated at up to 4,700 kgs per tyre. Heavy duty "T" connector make long lengths a simple matter. Male and female moulded end caps are available to complete the installation. Manufactured from UV stabilised polyurethane for strength and durability. Accommodates up to five cables or hoses simultaneously with diameter of up to 33mm.

## PART No. DESCRIPTION

CPS30 Drop over cable protector.

### Value Features

- \* High visibility for vehicle and pedestrian safety.
- \* Simple hinged lid operation.
- \* Five channels of 33mm diameter.
- \* Heavy duty "T" connectors and end caps.
