## OTHER PRODUCTS

This section is where we put products that don't really fit clearly into an existing section. Alternatively, they may be new products or unrelated products that we want to market test to gauge a level of interest.

## MODULAR WIRE SHELVING

A strong heavy duty modular wire shelving system that is ideal for coolrooms, commercial kitchens, warehouses, storerooms, hospitals, garages and homes.

Comprising tubular posts and height adjustable shelves in a range of sizes.

All components are zinc plated and finished with a clear epoxy powder coat for maximum protection.

Both posts and shelves are flat packed in cartons of 4 pieces. However, they are priced as single units and can be purchased individually.

This is an extremely flexible and versatile system which can be dismantled and repositioned at any time while maintaining complete structural integrity.

### Value features:

- » Heavy duty construction.
- » Clear epoxy powder coat finish over zinc plating.
- » Suitable for coolrooms and commercial kitchens.
- » Easy to assemble and dismantle.
- » Wide range of sizes available.
- » Adjustable, levelling feet (optional castors).
- » Holds up to 200kg per shelf.

Optional locking castors.

PART No.	DESCRIPTION
WS1472	Wire shelf 355 x 1830mm
WS1842	Wire shelf 460 x 1070mm
WS1860	Wire shelf 460 x 1525mm
WS2124	Wire shelf 530 x 610mm
WS2136	Wire shelf 530 x 915mm
WS2148	Wire shelf 530 x 1220mm
WS2160	Wire shelf 530 x 1525mm
WSP54	Support post 1370mm high
WSP63	Support post 1600mm high
WSP72	Support post 1830mm high
WSP84	Support post 2130mm high
WSLC	Locking castor wheel
WSH11	'S' Hook joiner

### PLEASE NOTE

**HOLDS UP TO 200KG PER SHELF.**  
Heavy duty construction and clear epoxy powder coat make our system the premium product in its class.  
**Don't be fooled by cheap imitations.**

Heavy duty / High quality.

#### Adjustable Shelves

Shelves are adjustable in increments of 25mm.

#### Levelling Feet

Simply screw post feet in or out to level shelves on uneven floors.

#### Wire Construction

Maximises light and visibility of stored items and aids air circulation.

#### 'S' Hooks

Can be used in place of extra posts in some circumstances.

## OTHER PRODUCTS

## PADLOCKS

Our standard duty 40mm brass padlock is suited to lighter duty applications. The high security padlock has a 9mm shielded shackle and can be supplied keyed differently or keyed alike. Both padlocks come with two keys. Suitable for Scorpion Wheel Clamps, Fold Down Bollards and Sleeve-lok Bollards.

BPL2 and BPL1.

PART No.	DESCRIPTION
BPL1	Padlock (standard duty) – 40mm brass
BPL2	Padlock (high security) – 9mm shielded shackle

## GALVANISED CHAIN & ACCESSORIES

Heavy duty galvanised steel chain comes in three sizes, and is sold by the metre. A range of split link joiners and shackles are also available for making connections. Ideal for our Centurian Bollards with Chain Rings.

Shackles.

Galvanised steel chain.

Split links.

PART No.	DESCRIPTION
CHAIN6	Chain – 6mm
CHAIN8	Chain – 8mm
CHAIN10	Chain – 10mm
SHACK6	Shackle – 6mm
SHACK8	Shackle – 8mm
SHACK10	Shackle – 10mm
SPLIT6	Split link joiner – 6mm
SPLIT8	Split link joiner – 8mm
SPLIT10	Split link joiner – 10mm

## PLASTIC CHAIN

A high strength plastic safety and barrier chain which can be used to cordon off work place and public access areas. Highly durable and in a range of colours it can be used for both indoor or outdoor applications. Sold by the metre or by the roll.

Can be used in conjunction with Q-control, Flex Bollards and T-top Bollards.

PC6R.

PC6Y.

PART No.	DESCRIPTION
PC6R	Plastic safety chain – 6mm Red per metre
PC6R-R	Plastic safety chain – 6mm Red per 25 metre roll
PC6Y	Plastic safety chain – 6mm Yellow per metre
PC6Y-R	Plastic safety chain – 6mm Yellow per 25 metre roll
PC6RW	Plastic safety chain – 6mm Red/White per metre
PC6RW-R	Plastic safety chain – 6mm Red/White per 25 metre roll
PC6W	Plastic safety chain – 6mm White per metre
PC6W-R	Plastic safety chain – 6mm White per 25 metre roll

PC6RW.

PC6W.

## COLLAPSIBLE MESH STORAGE CAGE

A strong versatile storage cage ideal for transport or warehousing. It collapses in seconds without the need for any tools. Drop down gate with self-locking latches provides access even when stacked.

With a load capacity of 1200kgs they can be stacked up to 4 high in a warehouse environment or 2 high in transport situations.

### Specifications

**Description:** Collapsible storage cage.

**Material:** Steel construction with 6mm wire.

**Finish:** Zinc plated.

**Dimensions:** 1200 x 1000 x 860mm.

**Weight:** 65kg.

**Load capacity:** 1200kgs.

Drop down gate.

Stackable.

Collapses easily.

Quick release locks.

PART No.	DESCRIPTION
GSC1	Collapsible mesh storage cage

## CASE STUDY – Concrete Wheel Stops

As most concrete wheel stops are around 150mm in height they do not comply with AS2890.1:2004. The standard specifies a maximum height of 100mm. This allows a clearance for most modern cars without causing them damage.

Exposed steel stake

Shattered concrete wheel stops often leave 150mm steel fixing spikes dangerously exposed to pedestrians or vehicles. Car park builders and operators need to be aware of their responsibilities and liability in the event of someone falling on one.

Concrete wheel stops are very heavy often weighing 100kg or more and requiring at least two men or mechanical lifting to install. They are inflexible and brittle and can be easily broken. They are particularly vulnerable at the fixing points.

**OUR SOLUTION:** Pay a little more and get the Menni Wheel Stop (see Section 5.1 for more details).

The **Menni** is a premium wheelstop. It has been developed and manufactured in Australia to comply with AS2890.1:2004 from ultra tough Linear Low Density Polyethylene (LLDPE).

It won't crack, crumble or fade. It's light to handle, highly visible and is supported by a Five Year Guarantee.

# LEGEND

## AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

## NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

## 100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

## RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

## HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

## FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

## 5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.
