

CORNER PROTECTORS

Prevent damage to both vehicles and buildings, particularly in building basements where space is often restricted. Corner protectors are ideal in loading docks. Made from recycled rubber with reflective panels.

Value features:

- » Reduces damage to vehicles and buildings.
- » Economical solution, simple to install.
- » Complete with reflective panels for increased visibility.

PART No.	DESCRIPTION
CP1080R	Corner protector 100 x 100 x 800mm long

SECTION 3.6

DOCKING BUMPERS (D-Section)

Heavy duty docking bumpers. Suitable for loading bays and jetties etc. Manufactured from hard wearing EPDM blended rubber compound.

Available in 2 sizes, 90 x 110mm and 200 x 200mm. Standard lengths can be cut as desired.

Value features:

- » Heavy duty rubber in two sizes.
- » Can be cut to length and drilled.
- » Reduces damage to vehicles and buildings.

PART No.	DESCRIPTION
DR300	Dock bumper 90 x 110 x 300mm long (2.3kgs)
DR1000	Dock bumper 90 x 110 x 1000mm long (7.5kgs)
DR2020	Dock bumper 200 x 200 x 900mm long (25kgs)

SECTION 3.6.1

DOCKING BUMPER (B-Section)

A slimline high performance docking bumper for loading bays or areas where mobile trolleys and hand trucks cause damage to physical assets.

Only 55mm thick with reflective centre panel for improved visibility in low light environments.

Value features:

- » Slimline design, only 55mm thick x 1000mm long.
- » Reflective panel for improved visibility.
- » Recessed mounting holes moulded in.
- » Ideal for protection against trolley and pallet trucks.

PART No.	DESCRIPTION
DR160	B-Section dock bumper 50 x 160 x 1000mm (5kgs)
