

CORNER PROTECTORS

Prevent damage to both vehicles and buildings, particularly in building basements where space is often restricted. Corner protectors are ideal in loading docks. Made from recycled rubber with reflective panels.

Value features:

- » Reduces damage to vehicles and buildings.
- » Economical solution, simple to install.
- » Complete with reflective panels for increased visibility.

PART No.	DESCRIPTION
CP1080R	Corner protector 100 x 100 x 800mm long

SECTION 3.6

DOCKING BUMPERS (D-Section)

Heavy duty docking bumpers. Suitable for loading bays and jetties etc. Manufactured from hard wearing EPDM blended rubber compound.

Available in 2 sizes, 90 x 110mm and 200 x 200mm. Standard lengths can be cut as desired.

Value features:

- » Heavy duty rubber in two sizes.
- » Can be cut to length and drilled.
- » Reduces damage to vehicles and buildings.

PART No.	DESCRIPTION
DR300	Dock bumper 90 x 110 x 300mm long (2.3kgs)
DR1000	Dock bumper 90 x 110 x 1000mm long (7.5kgs)
DR2020	Dock bumper 200 x 200 x 900mm long (25kgs)

SECTION 3.6.1

DOCKING BUMPER (B-Section)

A slimline high performance docking bumper for loading bays or areas where mobile trolleys and hand trucks cause damage to physical assets.

Only 55mm thick with reflective centre panel for improved visibility in low light environments.

Value features:

- » Slimline design, only 55mm thick x 1000mm long.
- » Reflective panel for improved visibility.
- » Recessed mounting holes moulded in.
- » Ideal for protection against trolley and pallet trucks.

PART No.	DESCRIPTION
DR160	B-Section dock bumper 50 x 160 x 1000mm (5kgs)

DOCKING BUMPERS (Menni)

When used as dock bumpers Menni modules offer a high level of impact protection to physical assets. Injection moulded from super tough and durable Linear Low Density Polyethylene (LLDPE) with recessed fixing points.

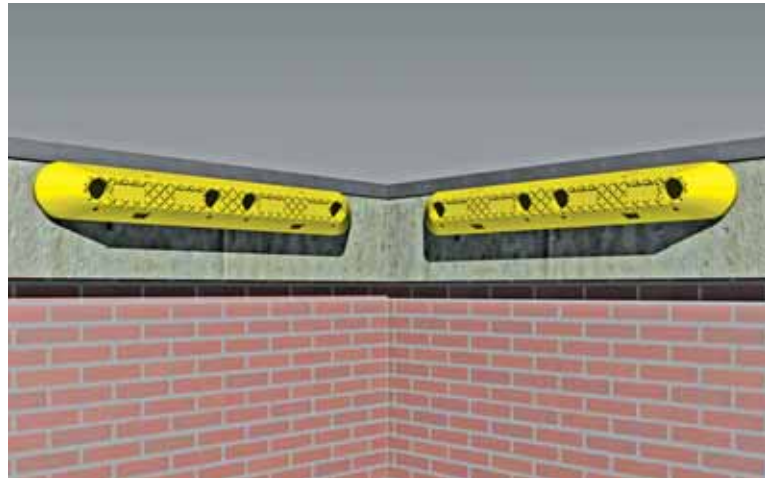

The coupled end and body modules come complete with fixings and connectors. With high visibility U.V. stabilised safety yellow, solid colour, they won't fade, and are resistant to chemicals, oils etc. Quick and simple to install.

⚠ MORE INFORMATION See Section 9.

Value features:

- » Handy 540mm long modules in two styles.
- » Moulded from super tough polyethylene.
- » Deeply recessed fixing points protected from impact.
- » Hi-viz safety yellow with solid colour.
- » 5 year guarantee against U.V. degradation.
- » Fixings included.

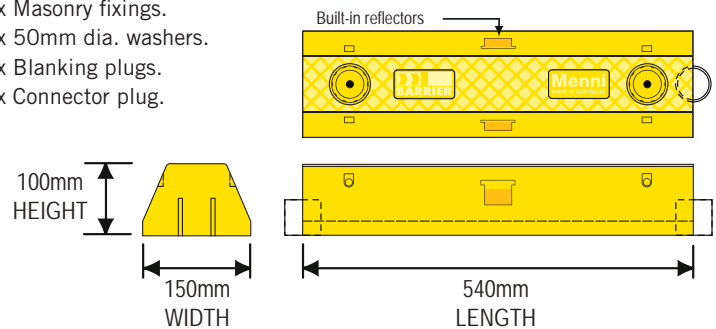

PART No.	DESCRIPTION
BME-Y	Menni end module – Yellow
BMB-Y	Menni body module – Yellow

High visibility yellow solid colour won't fade.

Supplied with:

- » 2 x Masonry fixings.
- » 2 x 50mm dia. washers.
- » 2 x Blanking plugs.
- » 1 x Connector plug.

SECTION 3.6.3

DOCKING BUMPERS (Dock-safe)

Dock-safe receiver blocks form part of our unique Dock-safe barrier system (see Section 2.2.5).

When used in isolation the blocks robust construction make ideal dock bumpers.

Manufactured from high quality rubber they incorporate recessed mounting points for M12 fixings (not included), and have the ability to crush and rebound on impact.

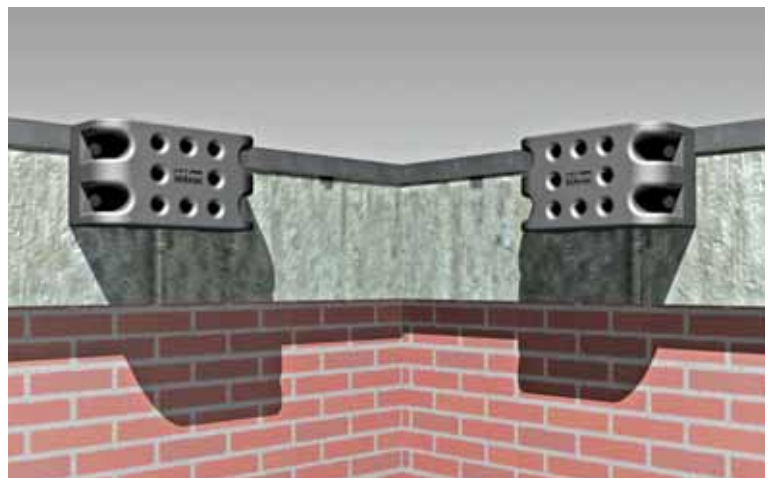

⚠ HANDY HINT

Position Dock-safe receivers so you can add drop-in Dock-safe panels at a later date if desired (see Section 2.2.5.)

Value features:

- » Part of the unique Dock-safe barrier system (see Section 2.2.5).
- » Solid rubber construction with built-in compression feature.
- » Protected and recessed fixing points.
- » High quality rubber compound.

PART No.	DESCRIPTION
DSR1	Dock-safe receiver 355mm long x 150mm high (12kgs)

Dock-safe receiver blocks form part of our unique Dock-safe barrier system.
