

CROWD-Q

Crowd-Q is a system of portable interlocking free standing fence panels for crowd management.

Crowd-Q is manufactured from super tough and light weight moulded polyethylene in hi-visibility safety orange. Maximum panel openings of 80mm ensure small children are unable to climb through or under.

Other features include stacking dimples, built-in reflective panels and low profile feet that rotate for transport or stacking. Panels link together to create continuous barricading for festivals, parades, sporting events and work sites.

Optional forklift stillages holding up to 14 Crowd-Q panels makes handling and transporting simple and efficient. See Section 7.10.2.

Value features:

- » Child safe 80mm panel openings.
- » Low profile folding feet with fixing holes.
- » Super tough polyethylene in hi-viz orange.
- » Light weight for ease of handling.
- » Sliding panel connector for sloping ground.
- » Built-in reflective panels.

Specifications

Description:	Portable interlocking crowd control system.
Material:	Moulded polyethylene.
Finish:	Solid colour. Hi-viz safety orange.
Height:	1000mm.
Length:	2130mm.
Thickness:	60mm.
Weight:	Approx. 14kgs per unit.
Installation:	Free standing, linked panels.

PART No.	DESCRIPTION
CQ2130	Crowd-Q portable event fence
EFS	Event fence forklift stillages – stackable
