

MOBILE TOOL CART STATION BOSCOTEK EASY ORDER GUIDE

BENEFITS OF A MOBILE TOOL CART STATION

Many successful workshops realise the benefit of well organised tool storage. Increased productivity can be the result of minimising the time it takes to find what you need. But like most things, nothing is constant and when job requirements change, so does the need to change your work flow.

At Boscotek we understand tool storage and so have developed the Mobile Tool Cart Station. This feature packed, multi functional product, combines tool storage, small part storage and a durable work surface. It has the flexibility to be located anywhere in your workshop at any time. The rubber mat access compartment allows you to store tools or documents and keep them easily accessible. For bulky, larger items the tool cart can incorporate lockable cupboards and a shelf tray. The durable 40mm laminated HDF timber top can be used for mounting a vice or a general working surface. This is a mobile tool storage solution that is ready for almost anything.

Mobile Tool Cart Station features include:

1	Feature	Laminated timber
	The workbench work top is arguably the most important feature of any workbench. The heavy duty workbench comes with a 40mm thick compressed timber bench top with a 2mm laminated worksurface with black edge banding. These durable and strong bench tops resist acid, alkali and oil. The under side of the worksurface is laminated to prevent moisture absorption, warping and shedding. Alternative bench tops available on following page.	
	Benefit	An ideal work surface for most applications.

2	Feature	Thick aluminium pull handles
	Sturdy full length aluminium handle. Powder coated in textured black.	
	Benefit	Greater manoeuvrability. Can be used to hang items. Hard wearing.

3	Feature	5 drawer storage unit with aluminium handles
	Store tools and parts in this versatile drawer storage unit. Ball bearing runners on all drawers with a 40 kg load capacity UDL. Top drawer includes 21 piece plastic bin set while additional drawers include steel dividers and partitions forming 9 individual compartments. All drawers with label holder and are lockable.	
	Benefit	Store more with high density storage

4	Feature	Shelf tray, louvre panel and peg board kit
	Clamping 2 vertical mounting posts to the rear of the worksurface a combination of tool and item storage accessories can be fitted.	
	Benefit	Allows tool hanging accessories to be used, standard plastic bins to be attached and items to be stored neatly and organised.

5	Feature	Access compartment
	120mm high full width access compartment with rubber mat and front and rear lip to keep tools from rolling away.	
	Benefit	Quick access to frequently used parts. Large enough for A2 documents or plans

6	Feature	Lockable cupboard unit
	Containing one adjustable shelf to form two shelf levels. Key lockable full depth cupboard. Flush door with 110 degree opening.	
	Benefit	Store larger items with 60kg load capacity

7	Feature	Castors
	Fitted with 2 swivel brake (with brake pedal) and 2 fixed polyurethane non-marking castors. Total Mobile Tool Cart Station load capacity is 400kg.	
	Benefit	Ensures level worksurface with high load capacity and improved stability.

Available in Boscotek light blue only

CHOOSE YOUR BOSCOTEK OPTIONS

Internal dimensions

Tool hanging accessories

With the Hanging Peg Board Panel System, tools and equipment are organised and neatly stored above the work top area with the use of varying sizes of hooks, holders and hangers. The simple clip in design means these metal tool accessories can be relocated with ease.

- Zinc plated steel
- 44 piece range of hooks, hangers and holders
- Clip in design makes using simple
- Centre hole for secure mounting with nut & bolt (not supplied)

Louvre panel

Hanging louvre panels are a versatile addition to your Tool Cart. Easily fitted to vertical mounting posts, louvre panels are designed to accommodate most industry standard plastic storage bins. Small parts and hardware can be quickly retrieved utilising the louvre panel system.

- Return folds and rear brace for additional strength
- Interlocking design with mounting vertical posts
- Easy to install and remove
- Tool Carts require 2 vertical mounting posts to use this accessory.

Peg board

Hanging peg board panels allow you the flexibility to customise tools and equipment storage with the use of a large range of accessories. The square hole design allows multiple configurations to suit any requirement. Louvre panels and peg boards can be combined to create the ultimate Tool Cart solution.

- Square hole accepts mounting accessories
- Return folds and rear brace for additional strength
- Interlocking design with vertical mounting posts
- Easy to install and remove
- Tool Carts require 2 vertical mounting posts to use this accessory.
