COIN LOCKERS

The perfect solution for the temporary security of personal belongings.
 Ideal for leisure centres, golf clubs, theatres, hospitals, libraries, shopping centres,
 bus and railway stations.

How the Coin Lock operates.

When depositing belongings in a locker a \$2.00 coin must be inserted in the slot indicated before locking and removing the key.
 When the lock is opened with the key, the coin passes through into the coin return tray or into the coin collecting box if a charge is being made for the use of the locker.
 If the lock has a return tray the user removes their coin.
 Now the lock and locker are available for re-use.
 When the door is unlocked the key remains captive.
