

Storage Cages / Trolleys / Pallets

Steel Pallets

Type STP-01 Steel Pallet

The STP-01 is a robust designed and fully welded construction steel pallet. The STP-01 allows for 4 way entry by forklift, as well as 2 way entry by pallet trolley. The smaller dimensions of the pallet make it ideal for container loading.

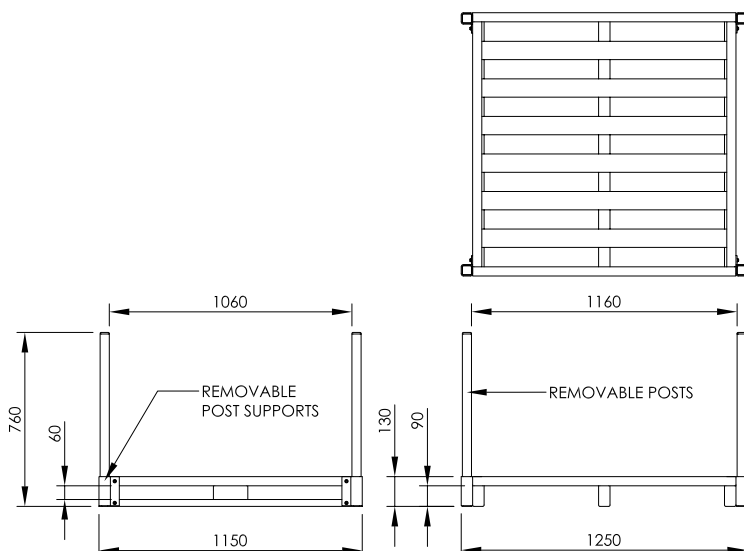

- Safe Working Load: 2000 kg
- Unit Weight: 30 kg
- Zinc Plate Finish

Type STL-02 Steel Stillage Pallet

The STL-02 stillage cage allows for loose goods such as fabric rolls etc to be easily packed, stored and transported.

Manufactured to the same specifications as the STP-01, this stillage pallet is fitted with corner brackets which accommodate the "drop in" corner posts (supplied loose with pallet).

- Safe Working Load: 2000 kg
- Unit Weight: 35 kg
- Zinc Plate Finish
