TUG LIFTERS AND POWER TUGS

The specially designed Power TUG unit enables movement of your heavy trolley without effort.

This converts a difficult operation into an "easy to move" motorised assembly with lots of power.

Productivity is greatly increased, with minimal operator effort.

12 Month Warranty

Tug Lifters:

- Has a built in hydraulic lifter, enabling the easy movement of loads that have wheels at only one end.
- An essential component for moving reels of fabric in the dyeing and textile industries.

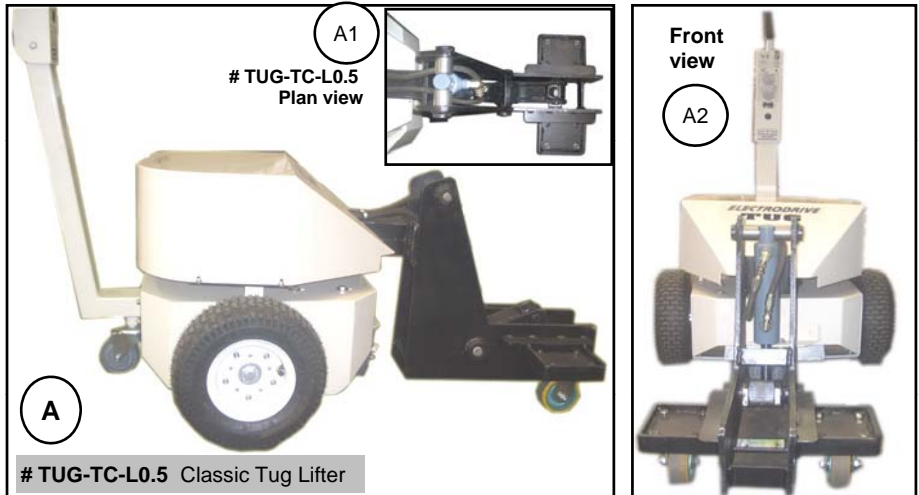

The Electrodrive Power TUG Unit incorporates the following

safety features:

- Emergency Stop, and horn buttons,
- For/Rev and variable speed control buttons,
- Flashing beacon with beeper,
- Electro-magnetic park brake.

All units come with Sealed Gel Batteries, Battery Condition Indicator and 8 Amp Charger as standard.
