TUGGALONG

Carry Capacity 1000kg (driver max 200 kg)

Move your stores and components with the unique battery powered Electrodrive Tuggalong.

The Tuggalong enables movement of heavy components without effort. This converts a difficult operation into an "easy to move" motorised assembly with lots of power.

Productivity is greatly increased, and back or shoulder strain is eliminated. automatic dynamic braking, as well as a high capacity motor controller.

Features include:

- Quiet operation,
- Low maintenance, and the
- Ability to fit into small lifts.
- Slow and stop automatically when the accelerator lever is eased off.

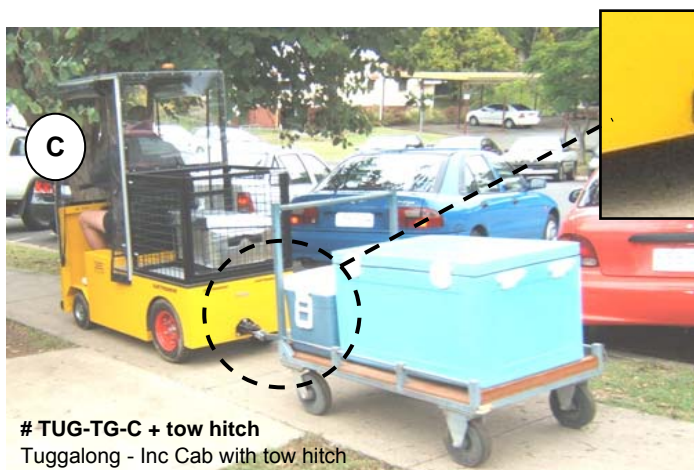

The Electrodrive Tuggalong incorporates the following safety features:

- "dead-man" safety switch under the seat.
- Emergency Stop, and horn buttons,
- Flashing beacon,
- Lock in charger socket.
