TUGLET - 500 kg Capacity

The unique battery powered Electrodrive Tuglet assists in the movement of your existing manual Laundry or Food Handling Trolleys. The Tuglet simply hooks on to your existing trolley converting your heavy trolley into an "easy to move" motorised assembly.

Productivity is greatly increased, and back or shoulder strain is eliminated. Ideal for industrial and clean indoor environments (Healthcare)

Features include:

- 24Volt DC power.
- Strong, all steel construction
- Variable speed drive unit.
- Electro-magnetic park brake.
- Ability to easily manage a 500kg trolley.
- Tiller handle steering that folds up to reduce space in lifts.
- Comfortable hand controls
- Programmable motor controller
- Automatic battery charger
- Automatically parks on ramps

All units come with Sealed Gel Batteries, Battery Condition Indicator and 8 Amp Charger as standard.

Industrial Applications

Designed for moving trollies, which cannot have a hitch attached.

The Tuglet shares many of the Tugs features, being a multi purpose battery powered materials handling solution. The Tuglet uses a unique hitch to attach itself to trollies, able to comfortably move its load up and down 1:12 ramps. The Tuglet has tiller control and a capacity of 500kg.

Healthcare Applications

Designed for moving trollies, which cannot have a hitch attached, such as linen trollies.

A multi purpose battery powered materials handling solution.

The Tuglet uses a unique hitch to attach itself to trollies, able to comfortably move its load up and down 1:12 ramps.

The Tuglet has non marking tyres, making it suitable for indoor use. The Tuglet has tiller control and a capacity of 500kg.
