

## Sieving Units

The Circular Sieve Unit can be used in conjunction with our range of interstacking bins. The RMSB11 and RMSB7 are used for illustration purposes.

The circular sieve is available in 1.0mm and 2.5mm mesh sizes, other mesh sizes available by special order.

The illustrations (on the left) show a sieving unit being created using our RM28TR mobile and a specially made sieve.

\*All Prices on Application

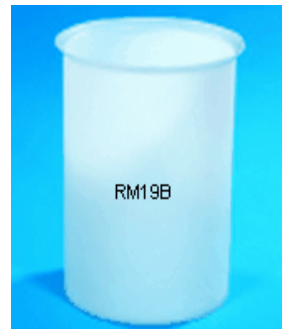

## Tapered Bins

\* 6 sizes of tapered tub  
 \* Lids available (except RM14B)

Can be fitted with stainless steel or galvanised handles

The RM19B is a straight sided bin. No lid is available. The dimensions are 480mm diameter x 600mm high.
