# Portable Step Platforms

It takes a truly unique climbing product to protect your workers and your business.

The new Branach WorkMaster Step Platform gives an extra margin of safety.

Lightweight and easy to carry, this fibreglass, non-conductive step platform is ideal for use in the construction, maintenance, inspection, warehousing and building industries.

It is available in platform heights from 600mm to 3.6 metres with a fixed safety rail 900mm above the platform.

A fully enclosing safety rail and castors are optional.

### Features

- Electrically safe
- Sturdy and durable
- Lightweight and easy to move
- Single action set-up
- Comfortable, non-restrictive platform
- Now available in two widths
- Complies with Australian Standard

### Standard fittings:

- Fibreglass stiles
- Aluminium fittings
- Non-slip hinged platform
- Non-scuff rubber feet
- Waist-height fixed safety rail

### Accessories:

- Retractable safety rail
- Spring-loaded castors
- Tooltray
- Front split handrail
- Levelling legs

Model	Part Number	Load Rating	Nominal Height (m)		Approx Weight

## STEP Platform Accessories

**The rear safety handrail** adds an extra layer of safety by preventing the user from inadvertently stepping backwards off the platform. The rail splits to allow the user entry and is then locked behind the user.

**Part Number :**  
 # RL (To suit FPL) or  
 # RW (To suit FPW)

**Spring Loaded Castors.**

Default position of the castors is down to allow the platform to be moved easily. The castors retract under the weight of the user. Optionally fitted to both the FPL and FPW platforms. Heights from 0.6 to 1.8.

**Part Number: # CA**

**The tooltray** is an optional addition to the platform range. It allows the handy storage of tools, rivets, nails etc for use when working on the platform.

**Part Number:**  
 # TR-BR

**Kick board**

for preventing tools etc from being kicked off a platform inadvertently. Optional factory fit accessory.

**Part Number:**  
 # KB-BR

**Front split rail for platforms.**

Allows the user to open the split rail and step off the platform onto another surface.

**Part Number: # FS** (To suit FPL) or  
 # FW (To suit FPW)

**Levelok Leveler set**

of 4 legs and 4 quick connect fittings attached to the platform.

For use on uneven ground.

**Part Number: # LP-BR**

**Manually operated lever actuated castors.**

Default position of the castors is retracted. Operating the lever lowers the castors allowing the platform to roll freely. Ground clearance when activated is 10 - 12 mm.

**Part Number:**

# CN (to suit FPL series 2.1 to 3.6m)  
 or

# CW (to Suit FPW series 2.1 to 3.6)

**100mm square aluminium Foot plates** attached to the feet of platforms to prevent the feet slipping into open weave mesh flooring.

**Part Number: # PF-BR**

**Levelok Leveler Leg**

for use on uneven ground. It is detachable from the ladder to minimise weight. Used in conjunction with "quick-connect" brackets which are attached to the ladder or platform.

**Part Number: # LL-BR**

Part Number	Description
# RL	Retractable Safety Rail for Standard version
# RW	Retractable Safety Rail for Wide version
# CA	Spring Loaded Castors - Set of 4 to suit ladders from 600mm to 1.8m
