Elevating Access Platforms

Uses

- Access The Top Of Vehicles
- Truck Venting
- Hatch Loading
- Sampling
- Connect Hoses

Vehicles Used On

- Tank Trucks
- Hopper Trucks
- Seatainers

Features

- Elevating platform provides fast, easy working height adjustment.
- Self-leveling gangway provides safe access to the platform at any height.
- Optional flip-up floor panels allow full access to vehicle, virtually eliminating spotting problems.
- Complete 42" high handrail system with top rail, midrail, and toeboard to enclose the deck, creating a safe working area in almost any kind of weather or environmental conditions.
- Can be retrofitted to existing platforms.
- Safety gates can be included to expand or reduce the top working area.
- Padded lower edge helps prevent vehicle damage.
- Available in aluminum or steel (galvanized, primed, mill, or painted).
- Can be manufactured for any size loading area from 6' to over 50'.
