

Safety Enclosures

Uses

- Access The Top Of Vehicles
- Truck Venting
- Hatch Loading
- Sampling
- Connect Hoses

Vehicles Used On

- Tank Cars
- Tank Trucks
- Hopper Cars
- Hopper Trucks
- Seatainers

Features

- Incorporated gangway allows easy vertical height adjustment to access a wide variation in vehicle types.
- Inboard expanded metal safety screens fill the gap between the platform and the vehicle to protect from inward falls on extra-wide models.
- 42" high handrail system, top rail, midrail, and toeboard on outboard handrail protects the outward side of the vehicle.
- Padded lower edge helps prevent vehicle damage.
- Available in aluminum, steel (galvanized, primed, mill, or painted), or stainless steel.
- TCEN II can be manufactured up to 60' in length for hopper car applications.

***We Coordinate
Loading Arms With
Access Equipment***

**Optional flip-up floor panels
allow full access to vehicle,
virtually eliminating
spotting problems**
