

STEP THROUGH - MOBILE PLATFORM LADDER

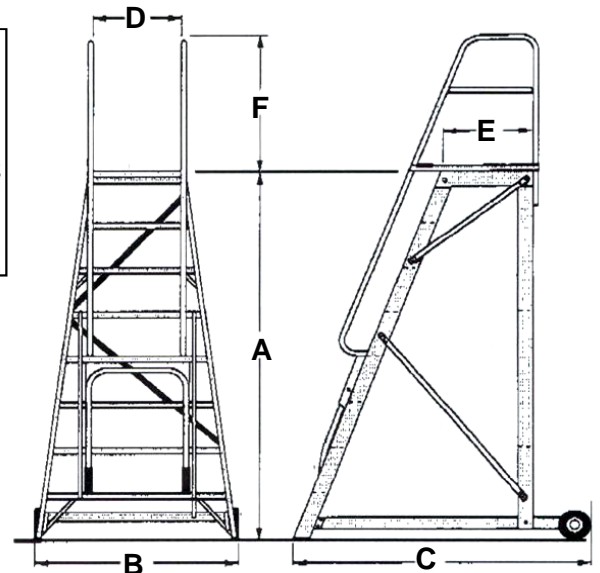

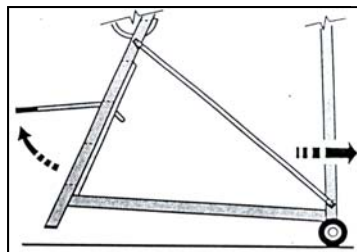

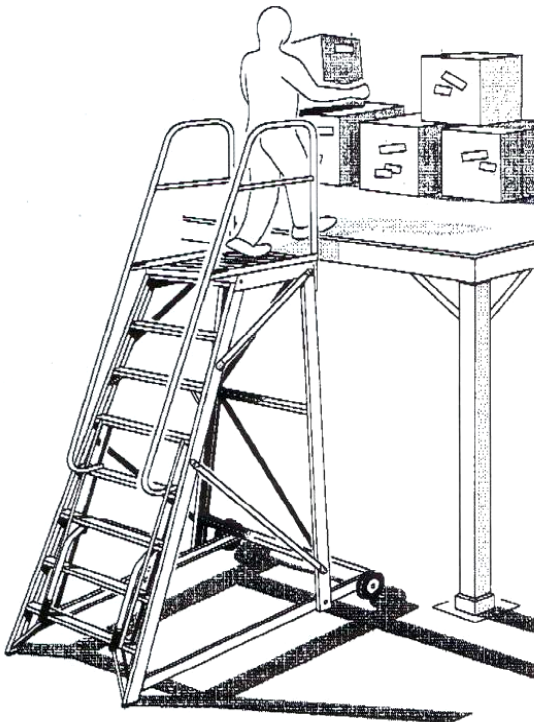

Stockmaster Step-Thru is a safe and easy to use mobile step-way.
 With two large diameter wheels it moves easily over sealed or unsealed surfaces and slopes making it ideal for indoor or outdoor use.
 Featuring a Tilt, Steer and Brake control it is fast and easy to move around.
 Taking hold of the control raises the unit to the mobile position to move to the job. *Release of the control automatically returns Step-Thru to the stationary mode where it is braked and totally stable.*

Suitable for aisles and more open areas.

- Tracker ST - Convenient relocatable passageway to elevated floors.
- Totally stable, unaffected by operator weight shift.
- Relocates in half the time of other fixed wheel platforms.
- Returns automatically to stationery mode.
- Large top step for turn around descent.
- Large diameter wheels for use on most surfaces.
- Ergonomic Tilt / Steel control to relocate with ease.
- Industrial Standard - designed to comply with workcover and

All Dimensions are in mm

Ladder Accessories

Stockmaster Auto-Gate

Stockmaster Auto-Gate provides automatic protection to eliminate the risk of a fall from height accident from the front of the platform. Auto-Gate can be supplied with all current models of Stockmaster Navigator, WinchTruk and Tracker. It may also be retro-fitted to some recent Stockmaster models. Please check the suitability of your model series before ordering.
