P-SERIES PORTA LIFT-TROLLEYS

100 kg Capacity Manual lift and Drive

Porta Lift is the cost effective portable lifting aid enabling one person to safely and without strain move up to 100kg from ground level to 1000mm. It can be used for loading and unloading of work vans, trucks, shelves, benches or anywhere there is traditional bend and lift required.

The Portalift can also be used to carry & load gas bottles as well if a ratchet strap is attached
