# JUSTRITE® CYLINDER STORAGE LOCKERS

## FOR COMPRESSED GAS

**Non-rusting, durable and secure storage for LPG and compressed gas cylinders.**

These Lockers are manufactured to comply with AS 4332-2004  
 For the safe storage and handling of Gases in Cylinders.

- Weather-resistant, all-welded aluminium construction stands up to abusive outdoor elements – won't rust, discolour or corrode.
  - Unique slanted roof design sheds rain and ice.
  - Quick-look, wire mesh sides prevent dangerous build-up of flammable gases.
  - 66% lighter than steel for easy placement and handling.
  - Heavy-gauge aluminium construction is 20% heavier than similar models – the heaviest gauge aluminium locker available.
- Extruded frame adds exceptional strength.
- Four labels included: (2 warning, 2 identification).
  - Ships fully assembled – saves set-up time.

**Ideal for:**

- Any industrial, commercial or municipal facility that uses forklift trucks
- Facilities using welding equipment
- Utility companies • Rental/leasing companies

Complete range of warning and full/empty cylinder signs available from spacepac

Extruded 3mm thick, heavy aluminium framework provides superior strength.

Easy to use rack positions cylinders securely and stores 15 kg cylinders.

Heavy, expanded, 7mm thick aluminium mesh panels and all-welded construction resist abusive outdoor elements – won't rust or discolour.

Padlock lug for security.

Aluminium's long lasting durability keeps your gas cylinders safe and your property looking clean.

Ships fully assembled to save on set-up time. Weighs 66% lighter than steel – costs less to ship and easier to position.

Cylinders stay clear of ground with heavy-duty bottom rack on horizontal locker or strong floor plate on vertical storage locker.

Sloped roof design sheds water and ice. Solid top reinforces stability.

A pre-drilled hole at each corner for anchoring. Accepts 12mm anchor for maximum security and stability.
