ATPRTNV5	Venturi assembly incl. Tee, nut & 5mm venturi	\$37.50
ATPRTNV9	Venturi assembly incl. Tee, nut & 9mm venturi	\$37.50

FEATURES

- Ideal for pesticide/herbicide drum rinsing and handling of drum washings
- Safety valve only opens when pushed down by inverted drum
- Manufactured from corrosion resistant material
- Standard rinse nozzle fitted
- 1" ball valve fitted to outlet
- Hinged 455mm lid with breather
- 3 sizes available 50ltr, 120ltr & 200ltr
- Impact resistant
- Calibrated for easy measurement of contents
- Rotating nozzle option

NOZZLES & VALVES

Standard nozzle and valve fitted to rinse bin (Price includes valve and nozzle)

Optional rotating nozzle (Price includes rotating section only)

- Fluid driven rotating cap
- Spins at 3000rpm at 3Bar pressure

PRESSURE (Bar)	1.5	2	2.5	3	4	5
FLOW (Litres/Min)	18	20	22	24	28	31

NOZZLES & VALVES

CODE	DESCRIPTION	Trade Inc GST
ATPRVBS	Standard Nozzle, Valve & butterfly	\$104
CA510110	Optional Rotating Nozzle - no valve	\$151
CA510100	Valve only - for rinse bin	\$47
CA51010040	Butterfly for standard valve	\$21
ATPRVBR	Rotating Nozzle, Valve & butterfly	\$219

RINSE BINS WITH VENTURI

FEATURES - RINSE BINS WITH VENTURI

- Calibrated for measurement
- Suitable for inducting liquid chemicals into main spray tank
- 1/2" BSP male inlet to Venturi - 1 1/4" BSP male outlet
- 2 Venturi sizes available (5mm & 9mm) to suit pump flow rates from 20 - 150 litres/minute (See chart below)
- Can induct liquid content to height of 1.8 metres
- Reduces chemical wastage

VENTURI SIZE (mm)	FLOW (Litres/Min)	PRESSURE	
		BAR	PSI
5	20-50	2-15	29-218
9	100-150	7-15	102-218
