

Modular Slimline Tanks

RTMS3000-8

RTMS2000-6

RTMS1000-5

MODULAR SLIMLINE TANKS

Features

- Available in 5 module sizes for endless combination possibilities
- Easy to manage and install
- Connector at the base of the tank facilitates quick and even filling and emptying of modules
- Easily add more modules at a later date

All tanks supplied with...

- Inlet Strainer (can be purchased separately)
- BSP outlets
- Overflow - Supplied unfitted
- Connectors - Supplied unfitted

Tank Manufacturing Standards:

Rapid Plas tanks are manufactured from virgin food grade linear low density polyethylene complying with AS 2070:1999 (Plastics materials for food contact use) and AS 4020:2005 (Testing of products for use in contact with drinking water) as required by AS 4766:2006 (Polyethylene storage tanks for water and chemicals).

Rapid Plas tanks are backed up with a 20 year warranty

Rapid Plas rainwater tanks are rotationally moulded as a 'one-piece' tank. At no stage is the roof removed and screwed back on. A carefully programmed manufacturing process ensures maximum wall thickness at the base - where it needs it most.

PUMP KITS AVAILABLE
