merchandising tip

Wall Systems:
At Oswald Sealy and Mei & Picchi we offer simple, stylish and inexpensive ways to fit out your store while still maintaining total merchandising flexibility.

Simple Steps to work out your requirements

1. Measure your wall length.
2. Divide the wall length by 600mm, 900mm or 1200mm centres to work out how many bays you require.
3. Select the components to suit your needs.

Easy Installation:

1. Fix 2 level rows of wall brackets to the wall. (Screws not inc.)
2. Slot the uprights into the wall brackets and tighten the thumb screws.
3. Adjust the feet to suit your floor level.

First Additional Bay

Uprights are 2500mm high and come with an adjustable foot and two wall brackets.
