M-SPAN

Coolroom, Freezer & Dry Shelving

All prices/specifications subject to change without notice.

M-SPAN shelving

Stainless Steel Posts and Polypropolene(food grade) Shelves

Shelf Sizes:

Shelf Widths of 300mm, 450mm and 600mm.

Shelf Lengths of 600, 750, 900, 1050, 1200, 1350 and 1500mm

Standard Shelving Heights:

3 tiers: 1200mm high

4 tiers: 1800mm high

5 tiers: 2000mm high

Weight Loading:

M-Span shelves are rated to 150kgs evenly spaced per tier and a total of 750kg for a 5 tier unit.

Assembly:

Clear access corner units and add on units use stainless steel M-Span shelf clips eliminating 2 posts.

Warranty:

M-Span shelves have a 20 year warranty against corrosion and should last a lifetime saving the environment from the need to throw out failed shelving and start again.

Environment:

The energy needed to produce a shelf has been massively reduced meaning this shelf system has a small carbon footprint. All parts of the M-Span shelf are recyclable.

Cleaning:

M-Span shelves have large flat open surface areas and very few ribs are needed underneath:

from 1 to a maximum of 7 ribs on the largest shelf sized 1500x600mm. The holes in the surface are flat on top and radius underneath to make wiping down easy.

Air Flow:

The large flat open surfaces of the M-Span shelf enhance the airflow through the holes in the surface of the shelf.

Usage:

M-Span shelving is suitable for dry store, coolroom and freezer use.

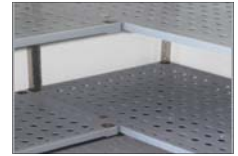

All prices/specifications subject to change without notice.
