

### COMPANY PROFILE:

- Established in 1982, Spacepac Industries is all about using space and handling material efficiently and economically.
- Based in Wollongong NSW, Spacepac has provided systems throughout NSW and Interstate.
- As customer demand increases Spacepac provides new and improved products most of which are manufactured in Australia; thus increasing employment and savings for our clients.
- Spacepac design & install products with more than one application - products suitable for widely different uses in both the Commercial & Industrial fields.
- By providing innovative design with the best available equipment, Spacepac is value for money on any site large or small.
