Spill Station Australia Pty Ltd is an Australian owned and operated business that, since 1983, has been dedicated to the manufacture and supply of superior environmental protection systems.

Our range of products and systems has been developed over these years to address the constantly evolving environment protection issues facing the Australian workplace.

Services such as obligation-free spill risk assessments, spill response training and Spill Kit service agreements are also available to ensure rapid and effective spill response at all times.

Spill Station Australia has been at the forefront of assisting Government and Industry in solving environmental compliance issues for over 20 years and we are proud of the contributions we have made towards keeping Australia beautiful.

We believe that this dedication to the highest quality environmental products and services will ensure your best environmental outcomes.

WAIVER/DISCLAIMER

Used absorbent materials are only to be disposed of in accordance with local, State and Commonwealth laws or regulations. Liquids absorbed by Spill Station® Absorbents maintain the same properties and handling requirements as prior to the spill. Spill Station® products are sold or supplied in absence of any warranties implied on the appropriateness of the product for any particular purpose except as required by relevant government authorities. Information contained herein does not constitute a warranty on Spill Station® products in any form.
