Vertiflex™ Knock Down Sign/Post Mounting System

Can Be Used With Poly Chain And/Or Signs

The Vertiflex™ has been developed to overcome the deficiencies of existing “Knock Down” rebound systems. This new proprietary product ensures delineator posts and signs return to their designated orientation. The Vertiflex™ provides optimum target value (completely white) designed for sign mountings on traffic islands, road sides, parking buildings, or other applications where vehicles are likely to “knock down” the sign/post.

Features

- No internal cables to fray or snap.
- Welded or push-in post cap at top.
- Quick to repair or replace due to simple assembly.
- Standard Post Heights: 600 - 900 - 1200mm or to request.
- Adjustable return/spring tension for different sign weights.
- Standard bolt pattern on base to replace existing installations.
- White polymer base & UV Protected High Density poly post add to visibility.
- Fixed orientation means signs cannot point in the wrong direction creating a potentially dangerous situation.
- Long life and robustness, especially for coastal applications where anti-corrosive components are essential.
- Injection Moulded Components moulded in engineering grade polymers for maximum durability.

Performance Characteristics

- Standard righting moment 35Nm
- Maximum impact velocity 100km/h

Code	Description
Posts for Surface Mounting	
# SPFB90-N	900mm w/- Flex Hit Flat Base-c/w Chain Notch & Cap
# SPFB120	1200mm w/- Flex Hit Flat Base & Cap
# SPFB120-N	1200mm w/- Flex Hit Flat Base-c/w Chain Notch & Cap
# SPFB120-N-REFL	1200mm w/- Flex Hit Flat Base-c/w Notch/Cap-Class 1 Refl'-Yellow
Accessories for Surface Mount Posts	
# SPD1270-25	Dynabolt 12 X 70mm Fastening (4 Required)
# SP6901-10	Bituminous Adhesive Pad For Flat Post Base
# SP6901	Bituminous Adhesive Pad For Flat Post Base
Posts for Inground (Socket) Mounting	
# SPFBI-120-N	1200mm w/- Flexi Hit Insert Base-White c/w Chain Notch & Cap
Accessories for Inground Posts	
# SPFBSLV	Socket - Inground for Flex Hit Insert Base - Aluminium
Options For All Posts	
# SPFBCL1	Reflective Cover For 900/1200 Post-Class 1-Yellow-Self-Adhesive
# SPCC8-35	Chain H / Duty 8x50mm PVC Yellow, 35 Mtr Roll + Other Colours
# SP10TD1	Clamp 50mm for Sign-Single-Sided
# SP10TD2	Clamp for Sign:- Double-Sided
# SP901181	Chain Holder For SPTD-Brackets Zinc-Plated

Options:- Installation Service Available.
