REVOLUTION TRAFFIC CONES

The Revolution Series were scientifically tested by running it over via full 48' semi truck (80,000lbs)

- Premium Grade PVC Injection Moulding Technology
- The most durable traffic cones in the market.
- Levelling Differential Mechanism
- Circle Interlocking System (CIS) create stronger mechanism foundation for absorb huge amounts of force from impacts without causing damage

3M Reflective Sleeve

is a plasticiser resistant, encapsulated lens reflective sheeting with pressure sensitive adhesive. Specifically designed for reflectorising polyvinyl chloride (PVC) traffic cones.

It is not recommended to use on polyethylene or rubber cones.

Complies with AS/AZ 1906.1 Class 1 Requirements for highway and utility use.

Cone c/w 3M 3840 Reflective Sleeve
