Trolleys for Audio Visual

These twin and four column trolleys have been designed to meet the demand for a sturdy mobile unit capable of supporting any large television or monitor.

Twin Column Television Trolley

SPTC1200P Illustrated

Top shelf: 900 x 600mm
Mid Shelf: 700 x 460mm
Base: 870 x 780mm
High: 1270mm (adjustable)
Posts: 51.4mm (2") dia S/Steel

Height adjustable - can be supplied with top at specified height - shelves adjust easily
 The large base area gives considerable stability.
 Even under adverse conditions the fully loaded trolley will return to an upright position if tilted to an angle of 15 degrees.

VERSATILE

The unit is supplied standard with a reinforced metal top shelf with powder coat finish.
 This shelf is normally 900mm x 600mm or as required.
 And one adjustable mid shelf
 Optional is adjustable top support brackets to suit a wide range of monitors.
 A popular option is Armdec LCD monitor arms in a variety of configurations.
100mm Grey Rubber Castors Swivel, Lock and Brake

MANOEUVRABLE

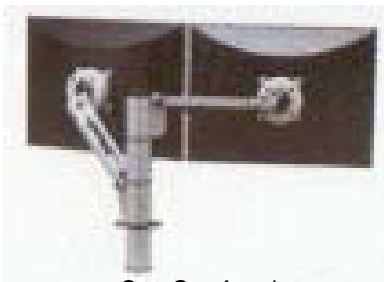

Even when supporting the largest through TV or monitor the trolleys will pass easily to the standard doorways.
 The 100mm diameter grey rubber non-marking castors allow for easy and silent movement.

HOW TO ORDER

The trolley is supplied as a complete unit with one mid shelf, ready for assembly.
