A revolution in cylinder safety!

\$500,000 FINES FOR LOADS

COMPANIES ENDANGERING public safety when transporting dangerous goods could face fines of up to half a million dollars or four years jail, from March 31 this year. National Road transport Commission Chairman, Stuart Hicks said much tougher corporate penalties.

* Australian Transport News Feb 98

Cylinders can become unguided missiles !
Protect staff, valuable gauges & equipment !
Prevent fines, damage, litigation & compensation !
No wasted time & money on design & fabrication costs !
No more cylinder Shake, Rattle and Roll !

- Purpose designed to keep cylinders secure.
- Wraps around and keeps in full contact with the cylinder, preventing both horizontal & vertical movement.
- In multiple fittings, BOTTLECHOCK secures each cylinder individually.
- **Don't expose yourself to risk unfastening all your cylinders to access just one!**

- Quick to install. Just four bolts & five minutes!
- Quick cylinder changeover with one pull buckle & strap.
- Quick emergency access to fire extinguishers.
- Quick release pins free up space when cylinder is not in use, and allow use in another location

- Flexible design makes it easy to "snap" cylinders into place.
- Cylinders don't have to be lifted preventing injury.
- Easy fit kits come ready-to-install.
- No wasted time, money & wages on custom fabrication!

Flexible Multifit Design

BOTTLECHOCKs unique clamp design enables any cylinder within a range of diameters to be held by the same clamp, e.g. the same medium BOTTLECHOCK pictured above fits both cylinders. Save money by using the same BOTTLECHOCK for different sizes and types of cylinders.

Quality

BOTTLECHOCK comes with a **2 year warranty**. It has been tried and tested across Australia in harsh outback conditions.

Australian Owned. Australian Made.

Part No.	Product Description
G1S, G2S, G3S, G4S, ST1S, ST2S, ST3S, ST4S	Kits to fit either 1, 2, 3 or 4 small cylinders. 100mm to 145mm, (3 15/16" to 5 11/16") diameter
G1M, G2M, G3M, G4M, ST1M, ST2M, ST3M, ST4M	Kits to fit either 1 or 2 medium cylinders. 160mm to 230mm, (6 5/16" to 9 1/16") diameter
G1L, G2L, ST1L, ST2L	Kits to fit either 1 or 2 large cylinders. 245mm to 375mm, (9 5/8" to 14 3/4") diameter
GOXYACET, GOXYACETST	Kit to fit 1 D/E/G size oxygen & 1 G size acetylene/propane cylinders side by side
