SYSTEM 800

Roof racks designed for high-roofed buses, cars and commercial vehicles with rain gutters.

RMB-200 Series

The perfect Heavy Duty roof rack system for vehicles with internal gutters. Precision fitting, they are ideal for vehicles without traditional rain gutters.

200 Series

Load carrier, easy to use, for cars with any type of rain gutter. System 200 contains specially designed load carrier supports for a perfect fit.

809 Series

Traditional, economy gutter mount system.

Dog Guards

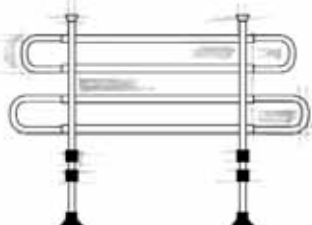

Keeping the loved ones' safe

Mont Blanc
Mesh DOG GUARD
Part# DG4S

Mont Blanc
Tubular DOG GUARD
Part# DG3S

The mesh and tube bars are adjustable vertically and horizontally and fit most 3-door and 5-door Hatchbacks and Station Wagons. Very simple assembly where the bars adjust to the right size without using any screws or tools.

Mesh Dog Guard Dimensions:
 Height: min 840mm, max 1060mm
 Width: min 910mm, max 1280mm

Tubular Dog Guard Dimensions:
 Height: min 780mm, max 1080mm
 Width: min 840mm, max 1460mm

NOTE: Dog guards are not a replacement for traditional cargo barriers.
