# GEMINI TRAY-ON-TRAY PLATED MEAL TROLLEYS

*Keep fresh cooked food hot to the point of service*

Transfer fresh cooked or regenerated food into a Versigen 'Hotline' trolley and deliver to any location within the facility. Unique Versigen innovations such as Profile Temperature Technology, Turbo heat Generator and the Focus Top Hot Service System ensure that your meals are kept at a safe, even temperature during transport, plating and service, without drying out or burning. The result is that your clients will receive hot, attractively presented and nutritious food – at the point of service.

Versigen trolleys can also be used to solve pre-plated meal distribution challenges, using our proven technologies to keep food hot – from the first meal to the last.

Part Number	# GEMINI24GHA	GEMINI24HR	GEMINI30HA
	<b>GEMINI 24 TRAY</b>	<b>GEMINI 24 TRAY</b>	<b>GEMINI 30 TRAY</b>
<b>Description:</b>	One heated compartment and one ambient compartment holding 24 trays in each section. Doors on each side of the trolley to simplify loading and unloading. Both heated and ambient compartments are completely isolated, hence the trolley can be safely used part-loaded.	One heated and one refrigerated compartment for holding and transporting hot and cold meals on separate trays which fit together for service. Plate hot and cold dishes well ahead of service, load trolley and serve when convenient. Meal temperatures will be safe and food quality perfect.	One heated compartment and one ambient compartment holding 30 trays in each section. Doors on each side of the trolley to simplify loading and unloading. Both heated and ambient compartments are completely isolated, hence the trolley can be safely used part-loaded.
