

POWERED GEMINI SENIOR

Compact drive motor and easy to use controls
Folding nose helps keep the largest of load in place
Maintenance free sealed battery with quick charge system

Part Number	: # PGA81UM43 Senior
Overall Dimension	: 1490H x 580W mm
Deck Width	: 305 mm
Capacity	: 450 kg (platform)
Weight	: 55 kg - with batteries (2)
Run Time	: Unit will run 3.2 km with full capacity on level ground
Charge Time	: 1.5 hours - maintenance free sealed lead acid batteries
Motor	: 1 horsepower
Max Speed	: 5.5 kmh

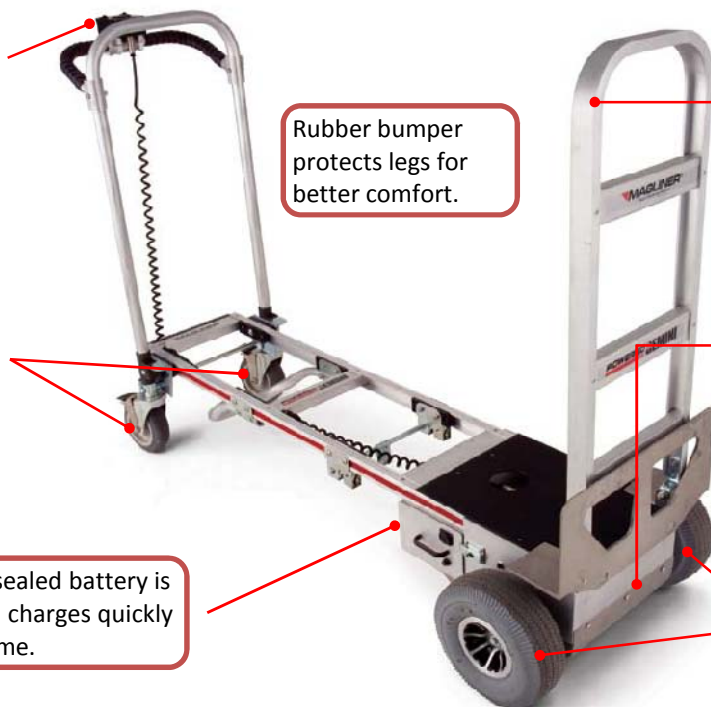

Perfect for deliveries to:

- Airports - Stadiums/arenas
- High-density, on-premise metro streets (bars and restaurants)
- Amusement parks and visitor attractions
- Shopping malls - Universities - Office buildings - C-Stores, etc.

Easy-to-use controls on an ergonomically designed handle provide exceptional maneuverability around corners and in tight spaces.

Beefy 150x 50mm industrial-grade casters provide smooth rolling over rough terrain including gravel – excellent load control and less product damage.

Maintenance-free sealed battery is easy to replace and charges quickly for maximum up-time.

Rubber bumper protects legs for better comfort.

Folding containment arm helps keep loads in place for less product spillage and damage.

Powerful 750-watt motor provides safe yet quick transport of loads in forward and reverse - up to 3.7 mph.

Non-marking wheels. Pneumatic wheels come filled with nitrogen, which stays inflated 6 times longer than air. (Available with microcellular foam-filled or pneumatic.)
