

livestock combination tank & trough

level indicator

sweep-out ramp

Features

- Guaranteed proven design to withstand sheep & cattle
- Internal plumbing prevents stock damage
- Supply of water is kept considerably cooler compared to troughs with no reservoir
- Designed for easy cleaning, with sweep out ramps
- Circular trough is easy for livestock to access. (In the case of the 22,000L equates to a trough length of approximately 9.5 metres!)
- When it is empty, the 5000L can be easily transported on a trailer
- Multi purpose – the tanks can be removed and used as a stand-alone rainwater tank

Colours: **Mist Green**

Code	Description	Trough Diameter	Tank Height	Trough Height
605	Combination Tank & Trough – 5000L	2500mm	2200mm	280mm (approx)
634	Combination Tank & Trough – 22,000L	4240mm	2500mm	350mm
608	Level Indicator	-		

Code	Description	Contracted Length	Extended Length	Width
521	Dual purpose trailer to suit 5000L	2750mm	5000mm	2450mm

sheep & cattle feeders

REGISTERED DESIGN

Features

- Non corrosive
- Weather hood protects feed from the elements
- Easy filling from ground level means there is no need to climb up on the feeder, thereby eliminating OH & S concerns
- Registered design
- Available in two sizes
- Skid available for transporting between paddocks – POA

NEW!

i

For feeding grain & roughage mix to cattle, suitable for feedlots or for paddock fattening. Ad lib distribution means that cattle can access as much food as they need.
