Battery Electric POWERDRIVE Kits

Designed specifically to suit a range of hospital and nursing home appliance and trolley applications.

This Power Drive system can be quickly & easily fitted to many different styles of equipment including, but not limited to:

- **Medicine Trolleys - Food Trolleys**
- **Laundry Trolleys - Bain Maries - Cleaners Trolleys**

NOTE:

- *These units are designed to be in contact with the ground at all times while under power - loss of traction while powered may cause damage.*
- *Please contact Spacepac and advise the application before ordering. Particularly where inclines and ramps are involved.*

Rated for loads up to 300 kg, this well engineered drive system has plenty of torque to drive even the most stubborn of trolleys.

All Power Drive systems come with a comprehensive warranty and after sales service commitment, to give you maximum peace of mind.

Comprehensive fitting instructions Provided
