

Trolley Beam Systems

Uses

- Sampling
- Loading/Unloading
- Inspection
- Venting
- Connect Hoses

Vehicles Used On

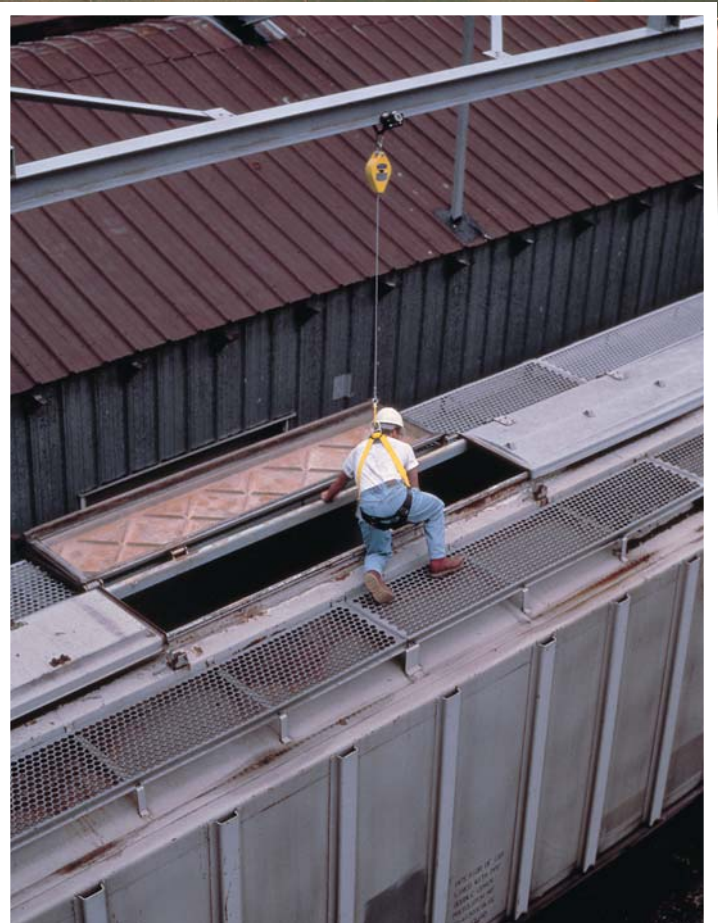

- Tank Cars
- Tank Trucks
- Hopper Cars
- Hopper Trucks
- Seatainers

Features

- Hands-free operation.
- Single or multiple line systems.
- Economical solution to multi-car access.
- Can be configured to meet your specific requirements.
- Utilizes a self-retracting lifeline to allow freedom of movement.
- Meets and/or exceeds all applicable OSHA standards as we interpret them.

Benefits Over Cable System

Cable lifeline allows a falling person to drop four to six feet before the fall is totally arrested, creating a much higher risk that the victim will strike an impact hazard! The trolley beam system typically stops a fall in less than two feet, helping to prevent injuries occurring from secondary falls!
