# BIN - LIFTERS

## ECOLIFT Bin Lifter - Manual winch Operation 50kg Capacity

Indicative Picture

- Safe lifting capacity of 50kg
- Lifts **80L, 120L, 140L and 240L bins**
- Simple manual crank handle operation
- Fits through internal doors
- Overall Dimension 1050L x 850W x 1860H mm
- Powder coated finish for weather resistance.

The ideal unit for anybody who has to lift light weights infrequently. Perfect for schools, small offices and local councils that dispose of paper waste and are required to empty the wheelie bin once or twice a day.

**shipped assembled**

Part Number	Description	
# ECOLIFT-50	suits dump bins up to <b>1600mm high</b> Shipping (Standing) 1200 x 117 x 2200H mm; 112 kg Shipping (Lying Down) 2500 x 1000 x 1000H mm; 120 kg	

Please nominate the wheelie bin compatibility when ordering

Indicative Picture

Recommended for use in mines or other flame hazardous areas or where there is no electric power available.

## BinLifter - Hand Pump Hydraulic 100kg Capacity

- Safe lifting capacity of 100kg
- Wheelie Bin Compatibility
  - In standard model it fits **240L and 140L wheelie bins**
  - With a built-in adjustment it can take 120L and 80L wheelie bins.
- Wheels (250mm solid rubber) and castors (125mm) for easy movement. Brakes on castors to immobilise.
- Constructed from high strength galvanised and powder coated tubing, so it's non-rusting.

Simply wheel the bin up to the Liftmaster BinLifter which is attached to the side of the dumper by two sliding catches. Clip the bin onto the frame. Then pump it up to empty. It only takes about 20 double action pumps to tip all the rubbish into the dumper. To lower the bin unscrew the relief valve, and the bin will lower in a controlled way over 18 seconds.

**shipped assembled**

# BIN - LIFTERS

Indicative Picture

## BinLifter Electro Hydraulic - Push Button Models

### 150kg Capacity

**shipped assembled**

#### 12 volt Battery (Deep Cycle):

12v battery driven, fitted with recharger. Simply plug into single phase 240v to recharge battery. Gives approximately 60 lifts per charge.

#### 240 volt Mains:

240v mains version for demanding applications of many lifts per hour, where mains electricity can be supplied.

#### This model is particularly suited if:

- You are tipping more than 3 bins per day
- The tipping is done by children (under adult supervision)
- If you are using 3 cubic metre or larger dump bins, where it is hard to lift the wheelie bins over the side of the dump bin, this is the BinLifter to use.

The two standard models (12v or 240v) give push button simplicity and ease. Standard it fits 240L & 140L wheelie bins, and with a built in adjustment it can take 120L & 80L wheelie bins.

Part Number	Description	
<b>12 Volt model</b>		
# BLEH12/1500	suits dump bins up to <b>1500mm high</b> Shipping: 1117 x 1117 x 1800H mm; 162 kg
