MULTI TIP *Bin Tippers*

Multi-Tip bin-tipper Handling Equipment offers the perfect solution to the problems of emptying heavy MGB bins and drums into larger bins for disposal.

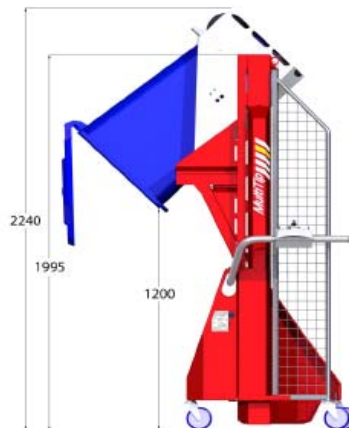

Click here to see the video

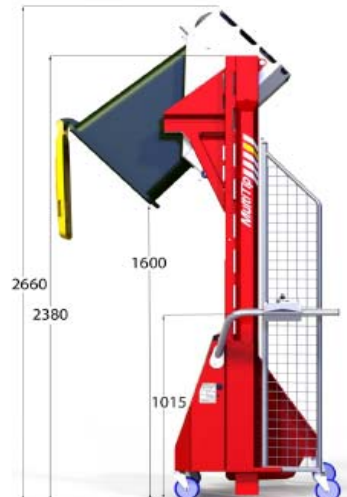

- 150kg capacity
- The standard cradle is designed for 240 litre MGB wheelie bins. Optional bolt-on spring-loaded catch kits enable 80l, 120l, & 140l bins to be emptied as well.
- Cradles to suit plastic and steel drums, rectangular bins and many other containers can be simply fitted or exchanged.
- Available in 2 standard tipping heights – 1200mm and 1600mm.
- Multi-Tip bin-tippers are available with 1-phase, 3-phase, or battery power packs. Battery-powered tippers have a sealed battery and an industrial-quality 'float' charger built in.
- Multi-Tip bin-tippers require no regular maintenance, and are robustly built yet light and easy to move around.
- Multi-Tip bin-tippers are designed to be safe to use, with all operating components fully enclosed. This also allows the unit to be operated indoors or outdoors.
