Dockmaster - Bin Lifter

The DM-700 pulls the front of the bin forward as the cradle is lifted thereby inverting the bin to empty into a skip located below the dock, or to safely empty the contents down a chute.

Specially designed 'feet' located behind the front castors prevent the DM-700 from being pushed over the edge of the dock or down the chute: the machine can be easily pulled back onto the dock by one person.

Standard Inclusion:

- 240 litre Wheelie-bin Lift Cradle
- 100 mm Castors (2 with brakes)
- Full Safety Caging (Hot-dipped Galvanised mesh or PET-G)
- Metal Door-catch
- Waterproofed
- Electronic Door-interlock Switch
- Key Switch

Cradle Option:

- Dual 120/240 Litre Cradle _____ Add \$90
- To suit specified containers such as round drums (200L), 660 & 1000L bins, bags, rectangular tubs, Brute containers, specialised containers etc. POA
- Multiple cradles eg. 240/660L bins, 120/240/660/1000 bins _____ POA
- Inter-changeable cradles _____ POA

Mounting Options:

- Pneumatic Wheels _____ POA
- Bolt-down Lugs _____ POA

Caging Options: (additional caging can be retro-fitted later)

- Full or Partial Stainless Steel _____ POA
- Side Guarding Only _____ POA

Power Source Options:

- Gel Cell Battery (included in cost)
- Single phase
- 3-phase

Other:

- Semi-automatic Controls (Single phase & 3-phase machines only) _____ POA
- Controls on both sides _____ POA

Price DO NOT include GST

Shipping - Assembled - As Shown

Shipping - Unassembled - Less 200mmH & 200mmL
