# FLAMMABLE LIQUIDS STORAGE CABINETS

Pratt Safety Systems flammable liquids storage cabinets exceed the stringent AS1940 criteria, which specifies a maximum capacity of 250ml for flammable liquids cabinets. All cabinets are supplied complete with signage as specified in the respective standards, including the class of goods stored and the maximum capacity of the cabinet.

**Features include** self-closing doors, double walled construction, multi-point latching, liquid tight sump and over capping lips on all surfaces to prevent ingress of heat. The closure rate of the doors on all models is adjustable, and instructions are printed on the inside of the door.

**Please Note:**

Rated capacities are given as a guide only.

The actual amount which can be stored in a cabinet is determined by the kind of containers used.

Internal height measurements are taken from the top of the sump lip to the

bottom of the self-closing mechanism and are intended

to reflect the usable height available.

**Standard Colour is Yellow**  
**Custom Colours, Such as Red - Add \$ 150+GST**  
**- adds 1 week to lead time**

## Flammable Liquids Storage Cabinets - Capacity 30 litre

Models 5516AS, at only 800mm high, are designed to fit underneath a standard laboratory benchtop.

**Ext. Dimension: 800mm Height x 505mm Width x 460mm Depth**

**Int Dimension: 520mm Height x 420mm Width x 375mm Depth**

Underbench Model, shown with sump covered.

Underbench Model, shown w/ bottom Storage.

## Flammable Liquids 205 L Drum Cabinet

**Model 5555S** will safely contain one standard 205L drum in the horizontal position, resting on a drum trolley (sold separately). Safety devices such as a self-closing faucet and flash arrester protected drum vent to protect the drum from ignition are available, as are drip cans, and grounding wires to protect against static electricity discharge.

**Model 5555VS** will accommodate one 205L drum in the vertical position. It incorporates full-width rollers in the bottom to facilitate moving drums in and out. There is sample room for a dispensing pump or collection funnel (sold separately) to be used inside the cabinet.
