CIGARETTE BUTT CANS, FUNNELS & DRAIN CANS

Cigarette/Cigar Butt Can

Reduces the risk of careless fires and promotes good housekeeping in the workplace. Attractive "green" receptacle is ideal for indoor or outdoor placement. Its large, 19 litre (5-gallon) capacity eliminates the need to empty the container frequently. Unit measures 813mm (32") overall height, 305mm (12") O.D. with tube I.D. of 50mm (2").

Waste Liquid Drum Funnels

Large 266mm (10 1/2"), ZIACOTE constructed funnels permit safe, rapid filling of 205 litre (55-gallon) drums with flammable liquid waste. Equipped with fusible-link actuated hinged cover. Fits into the 50mm (2") bung opening of an upright 205 litre (55-gallon) drum. Waste Liquid Drum Funnels are available with or without a self-closing check valve. This self-closing check valve minimizes vapor emissions and prevents spillage if the drum is accidentally tipped over.

Both models described above are available with two different arrester types. Choose a funnel with an 203mm (8") perforated-metal flash arrester for low viscosity flammable liquids or a 813mm (32") non-sparking brass tube for higher viscosity flammable liquids.

Part Number	Description	Arrester Type	Test Lab Listing	Trade Price Exc.GST

# 5502B-PR	Funnel	813mm Brass Tube	FM	\$ 627.00

Drain Cans

Extra large, 203mm (8") opening on funnel-type top section provides fast, splash-free receiving when draining flammable or hazardous waste liquids from other containers. Perforated-metal flash arrester protects against ignition of contents. A heavy-duty pail handle provides for carrying ease.
