OILY WASTE CANS, DRUM COVERS & DISPOSAL CANS

Oily Waste Cans

No. 1403

Provide for safe, temporary disposal of flammable-soaked rags or wiping materials.

Guard against spontaneous combustion. the Series 1400 Oily Waste Cans open to a full 60 degrees with slight pressure on foot treadle. Cover closes automatically when foot is removed.

Features ventilating air holes in raised bottom. No. 1456 is round shaped and its cover automatically closes by gravity. Available in ZIACOTE coated steel.

Part Number	Descriptions	Capacity (Litre)	Height (mm)	Diameter (mm)	Test Lab Listing
# 1401-PR	Ziacote, Foot Treadle	23	375	286	FM/UL
# 1402-PR	Ziacote, Foot Treadle	30	394	330	FM/UL
# 1403-PR	Ziacote, Foot Treadle	38	451	330	FM/UL
# 1404-PR	Ziacote, Foot Treadle	53	483	381	FM/UL

Self-Closing Drum & Pail Covers

Convert standard size pails and drums into fire-safe receptacles for the accumulation of combustible waste.

Renewable fusible link assembly melts automatically dropping cover to snuff out fire within container.

The ZIACOTE steel cover easily attaches by a single bolt and steel strap, and detaches for emptying without unfastening strap. Cover may be closed manually.
