# TYPE I - SAFETY STORAGE CANS

Protectoseal Type I Safety Storage Cans feature rugged lead-free Ziacote steel construction for safe, in-plant storage and transport of flammables.

Features include a locking flash arrester that prevents ignition of vapours within the container due to external flames. The wide opening spout allows fast, easy filling and emptying, while the spring-operated, self-closing cap opens automatically to relieve excess pressure.

Most Type I Safety Can styles are available in "flammable red", "kerosene blue" or "diesel yellow". You can also choose most Protectoseal Plus Series cans in electro-polished 316 s/steel.

**"Protectoseal Plus"** *the standard of the industry for over 75 years*  
**"Protectoseal"** *Workhorse quality at a competitive price*

Features	Protectoseal	
	Plus Series	Series
Built from rugged heavy-gauge ZIACOTE, a lead-free coated steel that maintains outstanding corrosion resistance		
Spring-operated, self-closing cap automatically opens to allow expanding vapours to escape		
Electrically welded and lap-joined seams prevent leaks and provide maximum strength		
Double-wall shock rim and raised bottom strengthen and protect the sides and bottom against damage		
"Shock-guard" carrying handle shields dispensing lever		
Ergonomically-designed handle and linkage prevents possible spillage	One-hand Operation	Easy Pouring
Locking flash arrester prevents entry of external flames	Perforated-Metal	Double-Mesh
Rugged, leak-resistant, gasket in spout cap	Leather	Composite
Backed by Protectoseal's limited warranty program	5-Year	2-Year

## Funnel Attachment

Rugged Ziacote steel funnels have a spring clip for quick easy attachment to Protectoseal Plus Series and Protectoseal Series Type I Safety Cans. The flexible metal hose facilitates dispensing into small openings.

Durable, corrosion resistant, polyethylene funnels are also available.

Their snap on/snap off design provides a snug and rigid attachment.

Offered in models to fit both Protectoseal Plus Series and Protectoseal Series Type I Safety Cans.

The polyethylene funnels are sold individually and in packages of six (6).

- Models fit Protectoseal Plus Series and Protectoseal polyethylene construction small openings

Part Number	Description	Pack	Length (mm)	Hose O.D (mm)
# 2336P-PR *	For "Protectoseal Plus", Poly - White	1	254	17
# 2336Y-PR *	For "Protectoseal", Poly - Yellow	1	254	17

\* Does not fit stainless steel Protectoseal Plus Series Safety Cans.

Note: Additional Freight Charge Ex-Factory
