ULTRA-HARDTOP PLUS MODELS

<p>Part# 9650: HardTop P8, no drain, 369 kg Part# 9651: HardTop P8, with drain, 369 kg Dimensions: 3200 x 1574 x 2006 mm Capacity: (8) 208 litre drums</p>	<p>Part# 9652: HardTop P12, no drain, 539 kg Part# 9653: HardTop P12, with drain, 539 kg Dimensions: 4775 x 1574 x 2006 mm Capacity: (12) 208 litre drums</p>
<p>Part# 9654: HardTop P16, no drain, 709 kg Part# 9655: HardTop P16, with drain, 709 kg Dimensions: 6350 x 1574 x 2006 mm Capacity: (16) 208 litre drums</p>	<p>Part# 9656: HardTop P20, no drain, 879 kg Part# 9657: HardTop P20, with drain, 879 kg Dimensions: 7924 x 1574 x 2006 mm Capacity: (20) 208 litre drums</p>
<p>Part# 9658: 4-Drum HardTop Extender Kit, no drain, 170 kg Part# 9659: 4-Drum HardTop Extender Kit, with drain, 170 kg</p>	
<p>Weight Capacity: 4082 kg UDL per compartment Containment Capacity: 283 litres per compartment</p>	
<p>Options: Polyethylene Loading Ramp — Part# 0676</p>	

Some assembly required.

U.S. Patent No. 5,615,608

Safely Store Multiple Drums Outdoors

- Available in 8, 12, 16 and 20-drum models. Extender Kits are available to expand capacity beyond 20-drums.
- All polyethylene construction — offers excellent chemical resistance, will not rust or corrode.
- Separate, lockable compartments feature a unique “2-way” entry system — allows quick access to all four (4) drums.
- Roll-top covers can be easily lifted from waist height to access drum tops.
- Swing-out doors provide safety and convenience for loading or unloading drums.
- Low-profile (222 mm height) containment pallet positions drum-tops at a safe, convenient level to pour wastes into funnels or to use drum pumps.
- Rugged, 4082 kg uniformly distributed load (UDL) capacity per compartment allows safe storage of IBC tanks as well as drums.
- Units ship partially unassembled for freight savings.
- Meets EPA Container Storage Regulation 40 CFR 264.175 and helps comply with NPDES, 40 CFR 122.26 (1999). Considered a Stormwater Management “Best Management Practice” product (BMP). Also meets SPCC Regulations.

Use optional Ramp (Part# 0676) for easier drum handling — stores inside HardTop when not in use.

Part# 9656

Multiple “4-drum compartments” offer flexible usage for a broad range of operations including: storage of virgin chemicals, active hazardous waste collection and storage of spill response supplies. Internal walls and separate sumps allow materials to be segregated.

Part# 9654

Part# 9650

Heavy-duty weight capacity (4082 kg) allows storage of drums or IBC tanks. Easy access compartments are ideal for designated storage of spill response supplies.
