

Calf & Lamb Feeders

CALFATERIAS

5 Teat Calf Feeder

- 30 litre capacity
- Individual partitions each holding 2.5 litres
- Galvanised steel mounting brackets

8 Teat Calf Feeder

- 40 litre capacity
- Individual partitions each holding 2.5 litres
- Galvanised steel mounting brackets

Single Teat Milk Bottle

- 2 litre capacity
- Convenient handle for ease of use

Single Teat Feeder

- 4 litre capacity with calibrations for measurement of contents
- Galvanised steel mounting brackets

These durable UV stabilised feeders are a must for efficient and simple rearing of calves and lambs. Internal divisions and generous teat spacing ensures every calf gets their share. Comes standard with versatile screw on teats and caps for easy cleaning.

Calfaterias with Milk Maid Teats

Features

- Teat made from soft polyurethane
- Valve is removable to allow thorough cleaning of internal teat cavity
- Valve creates a high flow with minimal effort for training of calves
- When calves are trained the valve may be removed to encourage natural sucking
- New retained valve design - prevents valve from falling out during cleaning

Calfaterias with Peach Teats

Features

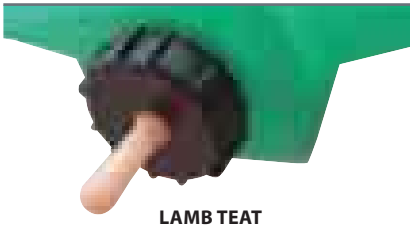

- Soft, flexible rubber teat
- Closely resembles a cows teat
- Valve glued permanently into teat
- Large valve aperture for free flow of milk
- Large cap for easy unscrewing
- Optional on all Rapid Plas Calfaterias
