SPACEPAC DURAPOLY LOCKERS

The durable Polyethylene Lockers offer attractive and long-lasting storage. The moulded design allows lockers to interlock for stability and strength. The Lockers have a range of features & Options which allow for versatile storage and security. The lockers can be free-standing as the poly is not affected by moisture, or can be fitted to stands or plinths, depending on your requirements.

Features:

- Excellent attractive aesthetics to blend in with modern environments
- Unique interlocking profile allows for locker 'bank' configurations.
- Very high-quality and Hygienic
- Super tough non-rust polyethylene allows for use in a myriad of adverse environments
- Can be numbered (eg. 1-100)
- Ideal for chemical storage
- The locks are door specific:
 - Standard: Pad Lockable / Key Lock
 - Optional: Coin Operated Lock / Digital Lock

Standard inclusions:

- Latch handle for padlock (std)
- Threaded drain plug in base to allow flushing for hygiene purposes
- Clothes hanging rail
- Std Colour:
 - Body - Light Grey
 - Doors - Teal / Castor Red / Dark Blue

Optional Accessories:

- Stainless shelves (maximum 3 per Locker)
- Weather-seal - P.O.A
- Keyed locks can be - unlike (standard) or keyed alike
- Master key available
