

Roof Rack Systems

Sportz & Accessories

Stylish In Design

The Sportz Pad Mount systems integrate the sleek stylish lines of the vehicle while still incorporating the Rhino-Rack strength and durability that we are renowned for.

The Pad Mount systems have the added advantage of all bars being level in height along the vehicle to assist in load carrying and looks. Rhino-Racks existing Sportz accessory range will also fit onto this system, providing greater flexibility to carry all of your sporting goods and adventure equipment.

Precision moulded inserts are provided to cover the pads when the cross bars are removed.

Rail Mount SXB Series

- Tested to AS1235-2000.
- Key locking security comes standard.
- Crossbars available in black or clear anodised (silver) finish.
- Modern design to compliment any vehicle.
- Easy fitment.
- Can be supplied to allow additional crossbar width to suit individual needs.

Gutter Mount SG Series

Simply one of the world's best gutter mount systems. Good looking, easy to fit, security bolts provided.

Removable Surface Mount

Tie Down Straps

Part# S331, S332,
S334, S335
Length: 3.0m
Load Rating: 310kg

Removable Surface Mount
 RSS Series
 Used on vehicles where "hooking on" can be achieved securely.
 Security bolts, rubber pads and stainless steel powder coated straps supplied.

Fixed Mount
 RSF Series
 A universal leg which will fit almost anything. Permanently attached to the vehicle roof. Great for any two door or gutterless vehicle where traditional racks cannot be positioned sufficiently far enough apart, allowing that extra bar spacing.

Track Mount
 RST Series
 Used mainly on wagons and 4WD's with a longer roof. Permanently fixed to the roof, however bar positioning is adjustable along the length of the tracks.

Sportz Ladder Strap
 Part# SLS5
 Camlock type features snap on fastening shackle secures ladder quickly and easily.

Sportz Ratched Grab
 Part# SRG
 Stainless steel for long lasting durability and supplied with 2m strap.

Rhino Multi Purpose Holder
 Part# RMPH
 Made from strong UV materials, this holder is the perfect addition when needing extra carrying capacity.
