

HEAVY DUTY WORKBENCH
EASY ORDER GUIDE

CHOOSE YOUR CONFIGURATION

With 4 easy steps to choose your **HEAVY DUTY WORKBENCH**

Boscotek Heavy Duty Workbenches help you optimise performance in the workplace by providing efficient, multi-functional and ergonomic workspaces which significantly improve productivity, space maximisation and produce a safer working environment.

Tailor your Workbench to your needs while providing greater versatility than conventional benches. Whether you choose stationary or mobile, or choose from our extensive selection of flexible accessories, you can design a workbench that exactly suits your requirements.

The Heavy Duty Workbench is a complete system, taking the advantages of our Modular and Industrial Workbenches and combining them to offer superior quality and competitively priced workbenches.

Heavy Duty Workbench features include:

Thick tubular frame construction

The welded frame assembly is constructed from tubular steel and is powder coated in wedgewood blue as standard. Workbenches are delivered flatpacked (unless otherwise stated).

Laminated timber

The workbench work top is arguably the most important feature of any workbench. The heavy duty workbench comes with a solid 42mm thick laminated timber top with black edge banding. These durable and strong bench tops resist acid, alkali and oil.

The under side of the worksurface is laminated to prevent moisture absorption, warping and shedding.

Heavy Duty large levelling feet

The heavy duty levelling feet are extremely strong, consisting of a 60mm footprint for maximum load capacity. Soled with a dense rubber compound and allowing for 45mm of extra height adjustment. Levelling feet are supplied as standard.

Rear brace support

The tubular steel rear brace support gives lateral rigidity to the Heavy Duty Workbench. The brace can be mounted in middle or rear. Additional brace supports are needed to support the undershelf.

1 tonne static distributed load capacity

The ideal combination of an thick tubular frame, 42mm bench top and heavy duty levelling feet have resulted in an extremely strong workbench rated with a static distributed load capacity of 1 tonne. Suitable for the most demanding industrial applications.

1500mm, 1800mm & 2100mm width available

Available in 3 widths. 1500mm, 1800mm and 2100mm wide. See the configurations page for more information

Accessories

The Heavy Duty Workbench is available with a range of under bench bottom (B) and above bench top (T) accessories. Combine these codes on the following pages to complete your workbench configuration.

Step 1 Select your workbench size (dimensions in millimetres)

900(h) X 1500(w) X 750(d) code **WBH.915**

900(h) X 1800(w) X 750(d) code **WBH.918**

900(h) X 2100(w) X 750(d) code **WBH.921**

Step 2 Select your bench top options

 **Laminated timber**
42mm grey laminated timber with black edge banding. These durable and strong bench tops resist acid, alkali and oil.

 **Hardwood timber**
45mm solid hardwood timber top

 **2mm mild steel**
2mm mild steel top powder coated matt black over 42 laminated timber

 **3mm mild steel**
3mm mild steel top powder coated matt black. Suitable for welding applications

 **Stainless steel**
1.2mm 2B/304 stainless steel top over compressed 42mm timber top

 **Galvanised steel**
1.5mm galvanised steel top over compressed 42mm timber top

Step 3 Select your under bench (B) and above bench (T) workbench configuration

Under bench (B)

- Under shelf
- * 5 Drawer unit
- * Cupboard unit
- * Mobile 5 drawer unit
- * Mobile cupboard unit
- 1, 2, & 3 Drawer unit

Above bench (T)

- Adjustable tray shelf
- Peg board panels
- Pouvre panels
- * Fixed shelf
- * Adjustable included shelf
- * Tool hanging accessories
- Heuer bench vice
- Lcd monitor arm

Step 4 Select your castor option

* = Not shown

Tubular frame, shelves and all accessories available in Boscotek light blue only

CHOOSE YOUR ACCESSORIES

Drawer units

Storage of hand tools and small parts are made easy with under bench drawer storage. Mounted on rails to the cross brace, the drawer unit can be mounted anywhere along the workbench width or on the left or right side.

- Aluminium handle extrusion
- White label with clear plastic lens
- Key lockable
- Drawer front = 100mm high
- Ball bearing runners. Load rating 40kg per drawer.
- Each drawer includes steel dividers and partitions

Lockable castors

Non marking heavy duty castors make workbenches mobile, ideal for changing workflow patterns and relocation.

- Non marking polyurethane compound
- Swivel and brake design

NB: Castors reduce weight capacity of workbench and increase workbench height by 75mm

Adjustable tray shelf

Full length adjustable tray shelves for storing smaller items and tools.

- Back support and large front lip
- Interlocking design with mounted vertical posts
- Available for 1500 1800 & 2100 workbenches

Fixed shelf

Two tier fixed shelf for storing slightly heavier items, tools and parts

- Back and front lip for retaining items
- Side mounting bracket with 4 clamping knobs
- 40kg UDL load capacity per shelf
- Available for 1500, 1800 & 2100 workbenches

Inclined shelf

Adjustable inclined shelf makes items easier to access

- Back and front lip for retaining items
- Post mounting with 2 clamping knobs
- 20kg UDL load capacity
- Adjustable incline to 0, 15 & 30 degrees
- Available for 1500, 1800 & 2100 workbenches

Inclined shelf shown in the 30° position

Louvre panel

Hanging louvre panels are a versatile addition to your workbench. Easily fitted to vertical mounting posts, louvre panels are designed to accommodate most industry standard plastic storage bins. Small parts and hardware can be quickly retrieved utilising the louvre panel system.

- Return folds and rear brace for additional strength
- Interlocking design with mounting vertical posts
- Easy to install and remove
- Workbenches require 3 vertical mounting posts to use this accessory

Peg boards

Hanging peg board panels allow you the flexibility to customise tools and equipment storage with the use of a large range of accessories. The square hole design allows multiple configurations to suit any requirement. Louvre panels and peg boards can be combined to create the ultimate workbench solution.

- Square hole accepts mounting accessories
- Return folds and rear brace for additional strength
- Interlocking design with vertical mounting posts
- Easy to install and remove
- Workbenches require 3 vertical mounting posts to use this accessory

Under shelf

Store large items efficiently, making full use of the workbench footprint. The under shelf is easily installed and locked into place with the additional cross braces supplied.

- Return folds for additional strength
- Load rating of 50kg per shelf
- Available in 1500, 1800 & 2100 workbenches

TOOL HANGING ACCESSORIES

Tool hanging accessories

With the Hanging Peg Board Panel System, tools and equipment are organised and neatly stored above the work top area with the use of varying sizes of hooks, holders and hangers. The simple clip in design means these metal tool accessories can be relocated with ease.

- Zinc plated steel
- Large range of hooks, hangers and holders
- Clip in design makes using simple
- Centre hole for secure mounting with nut & bolt
- Available in red ● & green ● kits or packs of 10 only. Number denotes quantity per kit.

Tool hanging accessory kits

- Red is recommended for 1500 & 1800 workbenches 44 pieces in total
- Green is recommended for 1800 & 2100 workbenches 76 pieces in total
